ROY CASTLE  
LUNG CANCER  
FOUNDATION

***“You just never think you’re going to be a young,  
female non-smoker and get lung cancer.”***

**Amanda is a GP in the army. She recognises there is a lack of awareness amongst fellow healthcare professionals and the general public around who can get lung cancer.**

**People think they know who lung cancer affects, but few actually do.  
And it’s costing people their lives.**

**Lung cancer is the second biggest cancer killer in women aged 25-49.  
#LikeMe is a stark realisation that no one is immune from this disease.**

**Parents are losing daughters.  
Brothers are losing sisters.**

**Join the campaign and show your support for people like Amanda:**
