***“I was diagnosed with lung cancer at 31 weeks pregnant. It’s been a whirlwind of devastation.”***

**Harriet is one of many young mothers whose life has been turned upside down by a terminal lung cancer diagnosis.**

**People think they know who lung cancer affects, but few actually do. And it’s costing people their lives.**

**Lung cancer is the second biggest cancer killer in women aged 25-49. #LikeMe is a stark realisation that no one is immune from this disease.**

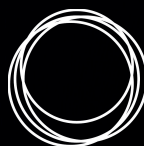

**Husbands are losing wives. Children are losing mothers.**
